*This repeater uses IMRS linking via DG-ID's You can connect to WM-Connect if you use DG-ID TX-35. Use DG-ID TX-23 for the Texas group and DG-ID TX-25 for Yaesu-IMRS. Using DG-ID 01 will keep you on the local digital repeater only and not connected to anything else.

** and Bolded, indicates these systems are normally all linked together via Wires-X WM-Connect room 21335

The Lakeview Michigan repeater is on a temporary pair of frequencies and they will change in the future as it is fully coordinated.
